Firing Cannon and Burning Tar at Jacksonville.

Physicians and People Working Like Spar-

tans to Stay the Disease

JACKSONVILLE, FLA., Aug. 15 .- The situation this morning makes the doctors smile, and the people here a deal better pleased. Up to eleven last night there vere only three new cases, two coming from the original source of all the trouble. No new cases or deaths reported to-day up to 5:80 o'clock, and the people are tak-ing in a long breath. The physicians now admit that the diagnoses of some of the so-called yellow-fever patients were wrong, and to-morrow a corrected list will be issued. This will state that altogether there have not been over twelve cases here. Telegrams are pouring in from all quarters offering ald of every kind, and Jacksonville feelingly acknowledges the kindness shown. The weather is cooler this evening and more favorable to fighting the disease. Last hydracie to fighting the disease. Last hight Wilson's Battery, with five guns, bombarded the microbes and germs, and all hope with good effect. Very heavy charges of powder were used. Five guns were sent over from St. Augustine on a special train, but they did not arrive in time for us last night. In fact no one seems to know where they were. The two runs ordered from Fernandina, and which hould have reached here Sunday evening, should have reached here Sunday evening, have not yet put in their appearance. Perhaps they are somewhere on the line of the railroad. If by the merest accident they should reach here to-day there will then be ten guns on hand, which will enable those having the matter in charge to pursue the experiment in various portions of the city at the same time, and it is probable tha the experiment will be kept up for several evenings and mornings. The battery was out again at 6 o'clock this morning for an hour, shooting, and hereafter from 6 to 7 a. an., and from 7 to 9 p. m., sun time. Great numbers of tar fires were burned in va-rious portions of the city last night while the concussion was going on, and very many more will be going to-night, so that the city will be pretty well enveloped to-night. The air now is completely impregnated with its fumes. Nearly everybody is preparing to burn tar to night, and in this way ald as far as they can the earnest work of those who are striving so hard and resorting to every means in their power to stamp out the dismeans in their power to stamp out the dis-ease now prevailing in the city. At a special meeting of the city council \$2,000 was ap-propriated for the Relief Committee. The police force is being increased, as it is found that some trouble may occur from thieves, as nearly all the negroes here, save those employed clearing up, are idle and have no money. HORROR AT SEA. Collision Between Atlantic Passenger

Steamers-A Hundred Persons Perish. NEW YORK, Aug. 16.-The steamer Wieland, of the Hamburg-American Steamship Line, has just brought news of a colision off Sable Island between the Geisser and Thingwalla of the Thingwalla Line, which occurred at four Line, which occurred at four o'clock on the morning of August 14. The Geiser sank in five minutes after the collision and 105 persons were drowned. The Thingvalla was so disabled that she had to put into Halifax after transferring all her passengers to the Wieland. The Geiser had eighty-six passengers aboard. seventy-two of whom were drowned or kilfed in the collision, and fourteen were taken first on the Thingvalla and then on the Wieland. The Geiser's crew numbered fifty seventeen were saved and thirty-three were drowned. Captain Moller, of the Geiser, was among those saved. The pas-sengers of the Thingvalla transferred to the Wieland numbered 450. The Geiser left this port on August 11, bound for Stettin. The Thingvalla was on her way to this city, and was advertised to leave here on August 25. A very heavy sea and a dens fog were experienced through the night and early morning of August 14. It is said an object could not be distinguished fifty feet away by reason of the fog. Stories differ as to where the liabilty lies, if not wholly due to the fog and heavy sea; but the Thingvalla struck the Geiser on the starside amidships, close on to four o'clock in the morning. The boats then parted, and within five min-utes the Geiser sauk. The crew of the Thingvalla did all they could to save the Geiser's crew and passengers while still in doubt as to whether the Thingvalla was not dangerously disabled: but owing to the heavy sea only thirty-one were saved. No other vessel was near at the time. The Wieland, on her way to this port, was one hundred miles away. At half-past eleven o'clock on the marning of the 14th the Wieland was sighted. Signs of distress were made by the Thingvalla, and a transfer of passengers began. The sea was then heavy, but no mishaps occurred in the transfer of passengers.

DRIFTING OUT TO SEA. In Air-Ship Sailing Over South Carolina at

a Height of Two Thousand Feet-The

Colored Folks Frightened. CHARLESTON, S. C., Aug. 16.-A large balloon passed over the eastern section of this State to-day. It was very high, supposed to be about two thousand feet and was sailing at a very rapid rate. It was first seen at Camden, and later on at Sumter. If it continues in that direction it will certainly go out to sea, unless a landing is effected very soon. It was seen by hundreds of people, many of whom sup-pose it is the balloon that was inflated with natural gas at Anderson, Ind. The colored people are much frightened at the sight of the monster sailing along in the air. They drop their tools and run when-ever they see it.

On Thursday matters had not improved he was ordered to pick it up again. He stooped down to do so, and at the same up to noon. By this time the residents and property-owners of that section time grasped a lump of coal and smashed the robber in the face, staggering him backbegan to collect at a point a short distance from Freetown, their object being to disward, and then jumped on him. A desperate hand to hand conflict took place, both men rolling down the cinder bank into the track ditch. The brakeman was finally perse the crowd without violence, and to send those who did not belong there to their homes and business. The citizens rode into Freetown, and found, as rumored, shot in the arm and through the hip, splintering the bone, the bullet, a forty-five caliber, passing out. When the rob-bers found they were foiled, they abana large number of armed colored men quartered there. They asked its meaning, and they were silent. They then demand-ed a surrender of the colored men's arms, with the promise that when they learned to behave themselves they would be returned, doned the attack and fled. The passenger were uninjured. A posse of men, mounted on fleet horses and well armed, left Rawlins and that they should at once disperse. The other morning an early passing farmer saw two bodies at the bottom of a ravine through which Rocky Creek runs. On investigason and Miss Sylvester. It was evident that they had driven off the enbankment

in the dark and so met death. WM. N. DUDGEON, a fisherman, found the dead body of a man floating in the Ohio river the other morning at the foot of Campbell street, Louisville. The clothes were examined, but nothing was discovered which led to identification. The body is that of a man of about forty years of age, five feet nine inches in height, and weighing 145 or 100 pounds. The hair was long and black, the face long and thin, and the forehead high. The body was dressed in cassimere trousers and a white cotton shirt. There were no shoes or socks on

the feet. Duning this term of court the grand jury, which has been in session for two weeks at Morehead, has found over seventy indict-ments, and about forty of this number are against citizens for the deservation of the Sabbath day. This includes merchants, barbers, gamblers, and all other persons who have been seen to transact any busi-ness on Sunday. The probabilities are that the cases will come up at this term of court. There is a great deal of indignation

over the matter.

There is trouble again in Pike County between the Hatfields and McCoys. Frank Phillips, the sheriff of Pike County, who made the former arrests, and whose daring deeds made him famous, seems to be the coveted prize of the West Virginians, who seem determined to get his scalp. The trials of the Hatfields were set for Pikeville, on the 13th. The week before Philips was out through the county securing lips was out through the county securing witnesses, etc., and when in the neighborhood of Beter, the scene of the former bloody encounter, he was approached by three men who claimed to be detectives, and who demanded his surrender. Philand who demanded his surrender. Phil-ips replied by whipping out his revolver and opening fire on the trio. He shot the belt off one Alexander, well known at Catlettsburg, and secured his three revolvers. No one was hurt in the meles. They retreated minus their hats, weapons, etc. The next day they returned with nine recruits in search of Phillips and his bodyguard, and the West Virginians were again repulsed. Sunday the Hatfield squad, to the number of sixty, passed the mouth of Beter Creek, of sixty, passed the mouth of Beter Creek, and Captain Hatfield told an old miner there that he had better leave as there was going to be trouble. Shortly afterward he heard the skirmish between the Hatfields and McCoys, the latter being forty-five strong and lying in wait for their enemies. After the smoke of the battle had cleared away, it was discovered that three of the Hatfields were killed and two wounded while three of the McCoys were wounded.
